## HIV, Malnutrition and Paediatric Disease

8:45	Morning announcements Lecture Theatre 1			
9:00	<b>Key Note: HIV, Malnutrition and Paediatric Disease: Global Outlook for the African Child</b> Lecture Theatre 1	Haroon Saloojee		
10:00	Tea Break - breezeway			
10:30	<b>Symposium</b> Lecture Theatre 1: <b>HIV and Malnutrition One</b>		<b>Symposium</b> Lecture Theatre 2: <b>Fluids in the Case Management of Severely Malnourished Children</b>	
	MMJ 123	Long-term follow up of children treated for severe acute malnutrition: a longitudinal cohort study	G Chagaluka	Fluid management in sick malnourished children - lessons learned from critical illness physiology
	MMJ 123	Mortality a year after admission with HIV and Severe Acute Malnutrition (SAM) in Malawi: a cohort study	J Bunn	MMJ 124 Glucose production and absorption are impaired in children with kwashiorkor compared to marasmus
	MMJ 124	Can severe acute malnutrition case fatality rate in HIV-infected children be reduced? Outcomes of a programme to improve management of SAM in Lea Toto	M Mutunga	MMJ 125 Severe dehydrating diarrhoea in Malawian children
11:30	<b>Symposium</b> Lecture Theatre 1: <b>HIV and Malnutrition</b>		<b>Symposium</b> Lecture Theatre 2: <b>Micronutrients - Zinc</b>	
	MMJ 126	HIV prevalence and mortality among children undergoing treatment for severe acute malnutrition in sub-Saharan Africa: a systematic review and meta-analysis	P Fergusson	MMJ 127 Quantity of maternal milk, and its zinc content, consumed by exclusively breastfed babies in Morocco
	MMJ 125	Modification of the Prudhon Index for HIV prevalent settings	J Bunn	MMJ 135 Impact of double supplementation Zinc-Vitamin A on morbidities among young children in Burkina Faso: a randomized, double blind, placebo-controlled intervention
MMJ 145	Can a "clinical severity score" (CGS) predict the risk of death in malnourished children? Preliminary results.	M Lazzarini	JB Ouedraogo	
12:30	Lunch (COM cafeteria) and Poster Walk (John		<b>Executive CAPGAN Meeting</b> - Conference Room	
14:00	<b>Symposium</b> Lecture Theatre 1: <b>Advocating for Improved Child Nutrition</b>		<b>Symposium</b> Lecture Theatre 2: <b>Nuclear Techniques to Combat Micronutrient Deficiencies</b>	
	MMJ 141	Childhood malnutrition - the Asian perspective	T Ahmed	MMJ 128 Stable isotope technique to assess Vitamin A body pools
	MMJ 128	Food provision in post-discharge follow-up of children with SAM halves abandon rates and reduces days of hospitalization in Luanda, Angola	M Lazzarini	MMJ 129 Tropical enteropathy and zinc homeostasis
		Effect of Climate change on diarrhoea and malnutrition	B Sandhu	MMJ 129 Stable isotope technique to evaluate iron bioavailability in infants
15:30	Tea Break - breezeway			
16:00	<b>Debate: Lancet Undernutrition Series, its relevance for Africa and Asia: the way forward in Child Health Systems</b>	H Saloojee, A Tahmeed, T Heikens, S Shepherd		
18:30	Dinner and Evening Market		L'Hosteria Restaurant	

Friday, August 14<sup>th</sup>

## Paediatric Enteric Disease and Malnutrition

8:45	Morning announcements - Lecture Theatre 1					
9:00	<b>Developments in Tropical Enteropathy and Malnutrition: Lessons from Indigenous Children</b>		David Brewster			
10:00	Tea Break - breezeway					
10:30	<b>Symposium Lecture Theatre 1: Diarrhoea Prevention and Surveillance</b>		<b>Symposium Lecture Theatre 2: Infant feeding</b>			
	MMJ 134	The enhanced diarrheal control initiative	E Simpson	MMJ 131	Infant and young child feeding behaviors during and after illness in Malawi	B Mtimuni
		A major diarrhoeal research initiative in the next ten years: Mal-ED	M Manary	MMJ 135	Stable isotope technique to assess breastfeeding during early life in Burkina	JB Ouedraogo
				MMJ 130	Caseload implications of 2006 WHO child growth standards for child health & nutrition programmes treating wasted infants aged <6 months: secondary data analysis of 21 DHS datasets	M Kerac
11:30	<b>Symposium Lecture Theatre 1: Gastrointestinal Organisms</b>		<b>Symposium Lecture Theatre 2: Antibiotics in the case management of malnutrition</b>			
	MMJ 132	A retrospective study of Cryptosporidium diarrhoea in a region with a high HIV prevalence	ED Nel	MMJ 133	A review of bacterial Infections in malnourished infants aged under 6 months: implications for case management in developing countries	H Bailey
		Out of Africa: Helicobacter pylori, a childhood infection with lifelong implications	D Forbes	MMJ 133	The routine use of antibiotics does not improve outcomes in the home-based treatment of severe acute malnutrition	I Trehan
				MMJ 146	Assessment of Severe Malnutrition Among Hospitalised Kenyan Infants Under 6 Months Old	JA Berkley
12:30	<b>Lunch (COM cafeteria) and Poster Walk (John Chipangwi Hall)</b>					
14:00	<b>Symposium Lecture Theatre 1: Rotavirus</b>		<b>Symposium Lecture Theatre 2: Micronutrients: Iron</b>			
		Efficacy of Human Rotavirus Vaccine RIX4414 In Malawian Infants	B Ngwire	MMJ 135	Iron deficiency and risk of infection in young Malawian children	K Phiri
	MMJ 134	Global update on the status of the Rotavirus Vaccine	J Tate		Iron supplementation in HIV infected Malawian Children - is it safe and	M Esan
	MMJ 152	Introduction of rotavirus vaccine in Africa: the need for surveillance for intussusception cases	M Kirsten	MMJ 127	Regular consumption of a complementary food fortified with ascorbic acid and ferrous fumarate or ferric pyrophosphate is as useful as ferrous sulfate in maintaining hemoglobin concentration above 105 g/L in young Bangladeshi children	L Davidsson
15:00	Tea Break - breezeway					
15:30	<b>Keynote lecture Lecture Theatre 1: The history and future of dietary</b>		Saskia De Pee			
18:30	<b>Dinner Malawi Sun Jupiter Room, and dinner lecture : Agricultural developments and Hunger in Africa: A Future</b>					
				Stephen Carr		

Saturday, August 15<sup>th</sup>

## The history and future of dietary interventions - LNS research network

<b>8:45</b>	Morning announcements (Lecture Theatre 1)		
<b>9:00</b>	<b>Key Note</b> Lecture Theatre 1 <b>Child Health in Africa in the context of HIV and malnutrition</b>	Hoosen Coovadia	
<b>10:00</b>	Tea Break - breezeway		
<b>10:30</b>	<b>Symposium</b> Lecture Theatre 1: <b>Use of RUTF – Efficacy and Effectiveness Trials</b>	<b>Symposium</b> Lecture Theatre 2: <b>HIV and malnutrition Three</b>	
MMJ 136	The iLiNS Program	K Maleta	MMJ 133 Presentation and treatment responses among HIV infected and uninfected children with severe malnutrition
MMJ 137	Outpatient treatment of severe acute malnutrition as a routine part of primary health care activities in Lusaka Zambia	C Mbwilli	Pharmacokinetics of nevirapine in HIV-infected children with and without malnutrition receiving divided adult fixed-dose combination tablets
MMJ 137	Probiotic/prebiotic-enhanced therapeutic food for treatment of severe acute malnutrition in an HIV prevalent setting: a double-blind efficacy RCT in Malawi	M Kerac	MMJ 125 Diarrhea in uninfected infants of HIV-infected mothers who stop breastfeeding at 6 months: The BAN study experience
			C Mkhomawantu
<b>11:30</b>	<b>Symposium</b> Lecture Theatre 1: <b>Lower-dose LNS formulations for prevention of child malnutrition - Efficacy and Effectiveness Trials</b>	<b>Symposium</b> Lecture Theatre 2: <b>More issues in child feeding</b>	
MMJ 138	Supplementary feeding with lipid-based nutrient supplement but not corn/soy blend improves weight gain among moderately underweight children: a randomised controlled 12-week trial in rural Malawi	C Thakwalakwa	MMJ 142 Survival of children discharged from a community based therapeutic case program
MMJ 139	Comparison of 3 types of supplementary food for treatment of moderate acute malnutrition and SFP performance	L Rossi	MMJ 138 Efficacy of a standardized protocol using local diet during nutritional rehabilitation of severely malnourished children in
MMJ 139	Summary of two proposed LNS trials in the Gambia	S Unger	Misisi community nutrition outreach programme
			B Amadi
<b>12:30</b>	Lunch (COM cafeteria) and Poster Walk (John Chipangwi Hall)		
<b>14:00</b>	CAPGAN General Meeting		
<b>15:00</b>	<b>Symposium</b> Lecture Theatre 1: <b>Social and economic aspects of food supplementation</b>	<b>Symposium and discussion session: Updates from the IAS meeting.</b> Lecture Theatre 2: E. Hayes	
MMJ 140	Food consumption patterns and caregiver feeding behaviors among moderately malnourished children in rural Malawi during supplementation with lipid-based nutrient supplements or corn-soy blend	VL Flax	John Chipangwi <b>Discussion with successful LNS producers</b> small group meeting
MMJ 141	Investigating the Economic Dimensions of LNS Use for Preventing Malnutrition	T Phiri	
<b>16:00</b>	Tea Break - breezeway		
<b>16:30</b>	<b>The Way forward</b> Lecture Theatre 1: <b>Presentation of the list of feasible implementations generated by CAPGAN 10, operationalizing</b>	Heidi Sandige, Tom Heikens	
<b>19:00</b>	Dinner, farewell by the CAPGAN leadership and congress organizers, Entertainment - COM
